equipment; control valves for hydraulic machinery; control valves for track cranes; generators of electricity; apparatus for generating power; wind-powered electricity generation systems and their parts and fittings; wind-powered electricity generators and their parts and fittings; motors for wind-powered electricity generators; wind turbines and windmills; semiconductor manufacturing machines and systems and their parts; semiconductor manufacturing machines and their parts; controllers for semiconductor manufacturing machines and systems; semi-conductor wafer processing machines and equipment; robots [machines] for delivering semi-conductor wafer used for semi-conductor wafer processing equipment; robots [machines] for delivering liquid crystal glass substrate; pneumatic snow blowing machines for railway points and their parts and fittings; air injection nozzles for pneumatic snow blowing machines for railway points; air reservoirs for pneumatic snow blowing machines for railway points; propulsion mechanisms, other than for land vehicles; internal combustion engines [not for land vehicles]; fuel injector for internal combustion engines for vessels; control valves for fuel injector for internal combustion engines for vessels; non-electric prime movers for vessels and aircraft; brakes [machine elements not for land vehicles]; actuators used for engines for vessels; speed governors for machines, motors and engines; emulsion fuel supply apparatus; transmissions for machines; actuators; actuators for landing gear for aircraft; linear actuators; hydraulic actuators; valves for aircraft; starters for motors and engines; AC motors and DC motors [not including those for land vehicles but including "parts" for any AC motors and DC motors]; alternators; direct current generators; motors [not including those for land vehicles]; motors for aircraft; engine fuel supplying apparatus for aircraft; parts and fittings for fuel supplying apparatus for aircraft; fueling nozzles; fueling nozzles for aircraft; fuel pumps for aircraft; pneumatic or hydraulic machines and instruments; fuel pumps; electric door openers and their parts and fittings; door closers, hydraulic; door openers, hydraulic; drive devices for automatically opening and closing gates; drive devices for opening and closing automatic doors; door closers, electric; door openers, electric; electric door openers and closers; electric driving devices for automatic revolving doors; automatic doors for railway cars; drive devices for revolving doors; door closers, pneumatic; door openers, pneumatic; motors, electric, other than for land vehicles; motors for automatic doors; packaging machines and apparatus; wrapping machines and apparatus; packaging machines; filling packaging machines and their parts and fittings; vacuum packaging machines and apparatus; vacuum wrapping machines and apparatus; machines for packaging food; machines for bagging and packaging; full automatic machines for packaging cosmetics; full automatic machines for packaging chemicals; vacuum pumps for use in filling packaging machines; vacuum pumps for use in vacuum packaging or vacuum wrapping machines and apparatus; filling machines; filling and sealing machines for food; filling machines and apparatus for food; filling machines and apparatus for pharmaceuticals; filling machines and apparatus for chemicals; filling machines and apparatus for

cosmetics; canning machines; bottle filling machines; pumps [machines]; vacuum pumps [machines]; stair lifts for wheelchairs; electric stair lifts for wheelchairs; plastic processing machines and apparatus; metalworking machines and tools; metalworking machine tools; primary metal forming machines and apparatus; secondary metal forming machines and apparatus; wire forming machines; metal pipe forming machines; metal polishing and grinding machines; rolling mills; tubing mills for metalworking; wire extruding machines; wire drawing machines; mechanical presses for metalworking; hydraulic presses for metalworking; shearing machines for metalworking; forging machines; bending machines for metalworking; oil hydraulic presses for metalworking; metalworking machines and tools for processing of constant velocity joints; sputtering apparatus for forming metallic thin film; sputtering apparatus; hot press apparatus; amorphous alloy manufacturing apparatus; glove box with gas circulation refining apparatus for assembling electronic component [machines]; machines for thin film deposition on the surfaces of objects by means of chemical vapor deposition processes; cultivators [machines]; spraying machines; spraying machines for agricultural purposes; plasma spraying apparatus for agricultural purposes; self-running spraying apparatus for agricultural purposes; vacuum apparatus for chemical processing machines; carbon cluster synthesizing apparatus; vacuum valves [machine elements not for land vehicles]; leak valves [machine elements not for land vehicles]; gas valves [machine elements not for land vehicles]; bellows valves [machine elements not for land vehicles]; couplings, other than for land vehicles (parts of machines); hermetic seal joints in the nature of sealing joints [machine elements not for land vehicles]; inlets of metal for meter gauge in the nature of vacuum valves [machine elements not for land vehicles]; automatic piping switching machines used in connection with food or beverages processing equipment; automatic piping switching machines used in connection with chemical equipment manufacturing chemicals; automatic piping switching machines used in connection with pharmaceutical manufacturing machines; automatic piping connecting machines used in connection with food or beverages processing equipment; automatic piping connecting machines used in connection with chemical equipment manufacturing chemicals; automatic piping connecting machines used in connection with pharmaceutical manufacturing machines; couplings and joints for use in automatic piping switching apparatus; connectors equipped with automatic piping switching machines used in connection with food or beverages processing equipment; connectors equipped with automatic piping switching machines used in connection with chemical equipment manufacturing chemicals; connectors equipped with automatic piping switching machines used in connection with pharmaceutical manufacturing machines; couplings and joints for use in automatic piping connecting apparatus; connectors equipped with automatic piping connecting machines used in connection with food or beverages processing equipment; connectors equipped with automatic piping connecting machines used in connection with chemical equipment

manufacturing chemicals; connectors equipped with automatic piping connecting machines used in connection with pharmaceutical manufacturing machines; couplings and joints for use in auto-connectors; sun tracking devices equipped with reflector panels used for solar photovoltaic power generation; solar thermal power generation systems; driving unit controller devices for base of reflector panels used for solar photovoltaic power generation; electric automatic door opening-closing apparatus and their parts and fittings; automatic gate openers, electric; stereolithographic 3D printers; 3D printers; forming machines for creating three-dimensional models; air compressors for railway cars and their parts and fittings; air compressors for air brakes used for railway cars; air compressors for lifting pantographs of railways cars; mechanical and hydraulic lifts built into railway car platform; air compressors for land vehicles and their parts and fittings; air compressors for automobiles; oil separator for land vehicles; oil / water mist separator for land vehicles; vacuum pumps for land vehicles; relay valves for controlling oil hydraulic system components for aircraft; pneumatic door actuators for railway cars; air filtering apparatus to remove oil and water mist from compressed air for air brakes for railway cars; air filter cartridges used for air filtering apparatus to remove oil and water mist from compressed air for air brakes for railway cars; air filtering apparatus for vehicle motor and engines; air filter cartridges used for air filtering apparatus to remove oil and water mist from compressed air for air brakes for automobiles; oil separators used to remove oil mist from exhaust air discharged from air dryers, for air brakes of land vehicles; air filters used to remove oil mist from exhaust air discharged from air dryers, for air brakes of land vehicles; hydraulic actuators for actuating flaps of aircraft wings (parts of aircraft);

Class 9: Transmitters of electronic signals; controllers for reduction gears; controllers for driving units; measuring machines and instruments, namely precision measuring apparatus, pressure measuring apparatus, vacuum gauges and detectors; testing machines and instruments, namely gas testing instruments, air analysis apparatus and testing apparatus not for medical purposes; testing apparatus not for medical purposes; sensors [measurement apparatus], other than for medical use; sensors for tracking sunlight; sensors for tracking sunlight used for solar thermal power generation; photovoltaic installations for generating electricity [photovoltaic power plants]; solar energy collectors for solar photovoltaic power generation; photovoltaic apparatus and installations for generating solar electricity; apparatus for testing vehicle brakes; apparatus for testing railway car brakes; apparatus for testing air source supplying apparatus for land vehicles; apparatus for testing air source supplying apparatus for railway cars; apparatus for testing door opening-closing instruments for land vehicles; apparatus for testing door opening-closing instruments for railway cars; position sensors; distance sensors; proximity sensors; level sensors; pressure sensors; remote control apparatus; radio communication machines and apparatus for vessels; voyage data recorders; digital

display apparatus for voyage and flight information; remote control apparatus for engines for marine vessels; remote controllers for engines of marine vessels; electronic speed control apparatus for main propulsion machinery for marine vessels; electronic speed control apparatus for auxiliary machines for marine vessels; inductive sensors used for remote control apparatus for engines for marine vessels; remote control apparatus for screws for marine vessels; computer hardware; computer peripherals; electronic control apparatus for vessels; power distribution or control machines and apparatus; high voltage power distribution or control machines and apparatus; high voltage power supplies; voltage stabilizing power supplies; electric connectors; distribution boxes [electricity]; switchboxes [electricity]; distribution boards [electricity]; plug boards; distribution transformers; apparatus for actuating and controlling aircraft wings; remote control apparatus for opening and closing doors; remote control apparatus for opening and closing gates; remote control apparatus for opening and closing doors used for railway platforms; access control system; remote control apparatus for automatic doors; remote control apparatus for automatic doors for railway platforms; movement switching units for automatic doors; electronic display units for automatic doors; remote controlling apparatus used for operation mode settings of automatic doors; automatic door systems for railway cars; computers and electronic displays for surveying railway platform doors and showing diagnosis of railway platform doors; announcement apparatus for automatic doors; turnstile gate apparatus; electronic locks; sensors for automatic doors; electronically regulated artificial limbs for medical teaching purposes; electronically regulated bionic knees for medical teaching purposes; electronically regulated prosthetic knees for medical teaching purposes; electronically regulated lower limb prosthetics for medical teaching purposes; electronically regulated lower limb orthosis for medical teaching purposes; electronically regulated upper limb orthosis for medical teaching purposes; computer software; computer software for creating modeling data for 3D printers; computer software for converting modeling data for 3D printers; vacuum gauges; measuring apparatus for measuring gas quantity; measuring apparatus for measuring gas content within aluminium; remote control apparatus for agricultural machines, agricultural implements other than hand-operated; remote control apparatus for sprayers for agricultural purposes; remote control apparatus for plasma spraying apparatus for agricultural purposes; fluid deterioration and contamination level measuring apparatus; measuring apparatus for measuring the chemical ingredients within fluid; measuring apparatus for measuring the degree of oxygen saturation within fluid; measuring apparatus for measuring the deterioration and contamination level measuring apparatus of oil or grease; electric hydraulic actuators; electric actuators; electric door actuators for railway cars; remote controllers used for hydraulic actuators for actuating flaps of aircraft wings.

Class 10: Medical apparatus and instruments; artificial limbs; electronically regulated artificial limbs for medical purposes;

electronically regulated bionic knees for medical purposes; electronically regulated prosthetic knees for medical purposes; bionic knees for medical purposes; prosthetic knees for medical purposes; walking aids for medical purposes; artificial limbs for the lower-leg for medical purposes; lower limb prosthetics for medical purposes; electronically regulated lower limb orthosis for medical purposes; lower limb orthosis for medical purposes; electronically regulated upper limb orthosis for medical purposes; upper limb orthosis for medical purposes; handcart type walking assisting rollators; walk aid rollators; electric handcart type walking assisting rollators; electric walk aid rollators.

Class 11: Drying apparatus and installations; vacuum drying machines; industrial furnaces; melting furnaces, for industrial purposes; heating furnaces, for industrial purposes; industrial air purifiers using gas circulation circuits.

Class 12: Reduction gears for land vehicles; brakes for land vehicles; brakes for land vehicles and their parts and fittings; brakes systems for railway cars and their parts and fittings; brakes for railway cars; brake shoes for railway cars; brake systems for railway cars; brake control systems for railway cars; brake control levers for railway cars; brake pads for railway cars; actuators for brakes used for railway cars; brake cylinders for railway cars; pneumatic control valves used to control compressed air for air brakes for land vehicles; compressed air tanks for railway cars; pneumatic actuators used to control leaning angle of railway car bodies for railway cars; pneumatic control valves for leaning angle control apparatus for railway cars; railway cars and their structural parts and fittings; automatic door for railway cars and their parts and fittings; passenger steps for railway cars; pneumatic cylinders used for opening and closing doors for railway cars (structural parts of railway cars); seats for railway cars and their parts and fittings; drive units for rotatable seat for railway cars; compressed air supplying apparatus used for air brake systems for automobiles; brake systems for automobiles and their parts and fittings; brakes for automobiles; air brakes for automobiles; brake chambers for automobiles; hydraulic clutches for automobiles; brake valves for automobiles; air brake hoses for automobiles; air brake hose couplings for automobiles; pneumatic control valves for air brakes for automobiles; clutch pedals for automobiles; clutch systems for automobiles and their parts and fittings; clutches for automobiles; clutch operation cylinders for automobiles; master clutch cylinders for automobiles; hydraulic dampers for clutches for automobiles; orifice valves for clutches for automobiles; shaft couplings for clutch shaft for automobiles; automatic doors for land vehicles and their parts and fittings; passenger steps for land vehicles; automatic doors for motor buses; passenger steps for automobiles; oil separators with drained oil storage as part of air brake systems for land vehicles; pneumatic control gears for vessels; motors for land vehicles; landing gear for aircraft; flight control gears; oil hydraulic circuits for aircraft (parts of aircraft); wheelchairs; electric nursing care wheelchairs; electric wheelchairs; electric trolleys; external electric wheels for wheelchairs.

Class 17: Semi-processed resins for use in manufacture; plastic substances, semi-processed; semi-processed resins in filamentary form used for 3D printers.

Class 19: Doors, not of metal; palings, not of metal; fences, not of metal; revolving doors, not of metal; folding doors, not of metal; platform doors, not of metal; platform screen doors, not of metal; platform edge doors, not of metal; door runners, not of metal; joinery fittings, not of metal; sliding doors, not of metal; hinged doors, not of metal.

Class 37: Repair and maintenance of machine elements, not for land vehicles; repair and maintenance of transmissions for machines; repair and maintenance of reduction gears; repair and maintenance of reduction gears for industrial robots; repair and maintenance of reduction gears for machine tools; repair and maintenance of reduction gears for semi-conductor manufacturing machines; repair and maintenance of hydraulic power units; repair and maintenance of hydraulic motors; repair and maintenance of hydraulic valve actuators; repair and maintenance of driving devices for hydraulic power units; repair and maintenance of driving units; repair and maintenance of valves (machine elements); installation, maintenance and repair of solar photovoltaic power generators; installation, maintenance and repair of solar thermal power generation systems; repair and maintenances of tracking systems for sunlight; installation, maintenance and repair of apparatus for generating electricity; repair and maintenances of apparatus for generating electricity and their parts and fittings; installation of wind-powered electricity generation systems; installation of wind-powered electricity generators; installation, maintenance and repair of wind turbines and windmills; repair and maintenances of semiconductor manufacturing machines and systems; repair and maintenance of controllers for reduction gears; repair and maintenance of controllers for driving units; machinery installation; consultancy regarding machinery installation; repair and maintenances of construction machines and apparatus and their parts; repair and maintenance of loading-unloading machines and apparatus and their parts; repair and maintenance of agricultural machines and implements and their parts; repair and maintenance of land, water, air and railway vehicles; repair and maintenance of railway cars and their parts and fittings; repair and maintenance of brakes for railway cars; repair and maintenance of automatic door for railway cars; repair and maintenance of rotatable seat systems for railway cars; repair and maintenance of pneumatic snow blowing machines for railway points; repair and maintenance of compressed air supplying apparatus for railway cars; repair and maintenance of automobiles and parts thereof; repair and maintenance of brakes for automobiles; repair and maintenance of clutches control systems for automobiles; repair and maintenance of air dryers for automobiles; repair and maintenance of air compressors for land vehicles; repair and maintenance of air compressors for automobiles; repair and maintenance of automatic doors for motor buses; repair and maintenance of oil collectors used for air dryers for land vehicles; repair and maintenance of oil collectors used for

oil separators for land vehicles; repair and maintenance of oil collectors used for oily water separators for land vehicles; repair and maintenance of oil collectors for land vehicles; repair and maintenance of parts and fittings of vessels; repair and maintenance of engines for vessels and their parts and fittings; repair and maintenance of instruments for vessels; repair and maintenance of telecommunication machines and apparatus; repair and maintenance of electronic machines and apparatus; repair and maintenance of remote control apparatus; repair and maintenance of remote control apparatus for vessels; repair and maintenance of aircrafts; repair and maintenance of aircraft parts; repair and maintenance of aircraft engines and engine parts; repair and maintenance of landing gear for aircraft, flight control gears, oil hydraulic system components for aircraft, apparatus for actuating aircraft wings; repair and maintenance of machine elements; repair and maintenance of actuators; repair and maintenance of brakes [machine elements not for land vehicles]; repair and maintenance of valves [machine elements not for land vehicles]; repair and maintenance of aircraft actuators; repair and maintenance of valves for aircraft; repair and maintenance of electric motors; repair and maintenance of power distribution and control machines and apparatus; repair and maintenance of motors; repair and maintenance of motors for aircraft; repair and maintenance of apparatus for actuating and controlling aircraft wings; repair and maintenance of high voltage power distribution and control machines and apparatus; repair and maintenance of high voltage power supplies; installation, maintenance and repair of electric automatic door opening-closing apparatus; installation, maintenance and repair of electronic automatic door opening-closing apparatus; installation, maintenance and repair of electric door closers, electric door openers, automatic doors, pneumatic door closers, pneumatic door openers; installation, maintenance and repair of automatic doors and barriers; installation, maintenance and repair of automatic gates; installation, maintenance and repair of electronic automatic opening-closing gate apparatus for platforms; installation, maintenance and repair of automatic doors for platforms; installation, maintenance and repair of access control system and turnstile gate apparatus; repair and maintenance of movement switching units for automatic doors; repair and maintenance of display units for automatic doors; repair and maintenance of monitoring apparatus for railway platform doors; repair and maintenance of packaging and wrapping machines and apparatus; repair and maintenance of automatic filling and packaging machines; repair and maintenance of medical apparatus and instruments; repair and maintenance of electronically regulated bionic knees, electronically regulated prosthetic knees, other bionic knees, prosthetic knees, electronically regulated lower limb orthosis, other lower limb orthosis, electronically regulated upper limb orthosis, other upper limb orthosis, and walking aids for medical purposes; repair and maintenance of wheelchairs; repair and maintenance of electric nursing care wheelchairs; repair and maintenance of electric wheelchairs; repair and maintenance of electric trolleys; repair and maintenance of handcart type walking assisting device and walk aid cars; repair and maintenance

of electric handcart type walking assisting device and electric walk aid cars; repair and maintenance of external electric wheels for wheelchairs; repair and maintenance of 3D printers; repair and maintenance of optical forming machines; repair and maintenance of forming machines for creating three-dimensional models; repair and maintenance of metalworking machines and tools; repair and maintenance of drying apparatus; repair and maintenance of industrial furnaces.

Any person may within two (2) months from the date of the first publication of this advertisement in the Intellectual Property Journal, file a notice of opposition in Form 3 at the Companies and Intellectual Property Office, of the opposition to the registration of the said trademark.

FOUR SEASONS HOTELS (Barbados) LTD. of CHANCERY HOUSE, HIGH STREET, BRIDGETOWN, BARBADOS, WEST INDIES has applied through their agent DUNCAN G. STOWE of 58 RIVER BANK, ROSEAU, COMMONWEALTH OF DOMINICA to the Companies and Intellectual Property Office for the registration of one Trade Mark consisting of the following design based on an application received on 25th July, 2019.

Class 39 that is to say: Transport; travel tour services; cruises; boat rental services; operation of marinas; operation of tourist offices and travel agencies; arranging of tours by car, boat, cruise, and air transportation; arranging and conducting cruises; organization of tours; organization of cruises; operation of tours, namely organizing and conducting travel tours; operation of cruises, namely organizing and conducting cruises; escorting of travelers; transport of travelers; passenger transport; operation of garages, namely organizing and offering parking garages for others; parking place rental; car parking; car rental; booking of seats for travelers and travel reservation; travel agency services for arranging tours; travel arrangement; air transport; air transportation; airport and cruise baggage check-in services; airport and cruise passenger check-in services; providing flight and cruise arrival and departure information; airport services; organization of travel; cruise ship services; provision of tourist travel information; marine transport; delivery of goods; delivery of cargo; packaging and storage of goods; travel services, namely organizing, offering, conducting, and operating travel by car, boat, cruise, and air transportation; tour guide services, namely arranging of transportation for guided tours; sightseeing (tourism), namely arranging of transportation for sightseeing; rental of

diving suits; travel reservations; boat cruises; travel agency services for booking travel, tours, cruises, air transportation, car parking, car rental, and marine transportation; making reservations and bookings for cruises; arranging of transportation for travel tours; including all of the aforesaid services provided electronically or online from a computer database or via the Internet; information, advisory and consultancy services relating to the aforesaid services; all included in class 39.
